Supporting the Disabled-Access Friendly Campaign

DCS, the organizing company of the International Publishers Exhibitions, has always managed to bring together all foreign language professionals, without any discrimination. We strongly believe that each person and organization is unique and has something positive to offer the FLE field.

We would like to offer our support to the Disabled-Access Friendly Campaign and commit our selves to make our exhibitions as friendlier as possible to people with mobility disability. In addition we will try our best to give you the opportunity to increase awareness of your campaign through our events.

With best regards,

INTERNATIONAL PUBLISHERS

Philip Dietschi
