Dear Paul

TESOL Macedonia-Thrace, N. Greece strongly supports the Disabled Access Friendly Campaign for a number of reasons which I will mention.

- It is a step towards the elimination of discrimination against disabled people.
- It promotes equal opportunities for disabled people.
- It is a step towards the establishment of relevant legislation in Greece.
- It serves as an effective way to raise awareness about the issue in ELT classrooms around the world.

We hope that other organizations like ours will also publicly support the Campaign.

*Julia Tanner-Bogia*
